

Every cat  
every day  
benefits from  
Winn funded  
research

## Join us today in giving to Winn's 2018 Feline Kidney Disease Campaign

This year, to support our Cures4Cats awareness program and celebrate our 50th anniversary, Winn Feline Foundation is excited to announce the launch of a new campaign to find answers for feline kidney disease (FKD).

Winn Feline Foundation will match up to \$50,000 in new donations toward feline kidney disease research with this initiative. You, our dedicated supporters, have let Winn know you want to find more answers about this critical health issue. Now is the time to significantly advance our understanding of feline kidney disease and provide answers so cats can live longer and healthier lives.
